OAKLAND HEALTH INSTITUTE,

Center Station, Seventh Street.

THIS INSTITUTE, OR HOME FOR THE SICK, is located in OAKLAND, CAL. It is commodious, well arranged, and every appliance and instrument for the treatment of disease have been introduced. Rooms have been fitted up for lying-in patients, who will receive the very best attention and all the comforts desired, and will be made to feel perfectly at home. The climate of Oakland is all that can be desired, and on this account alone, patients who require a change from malarial districts, etc., will find this Institute the most favorable resort for them. To complete our facilities for the treatment of all diseases, especially chronic diseases and diseases of women, we have introduced, at great expense, the TURKISH, RUSSIAN, ROMAN, STEAM, IODINE, SULPHUR, SICILIAN, MAGNETIC and ELECTRIC BATHS, Etc., together with a variety of showers, from hot to cold. Parties who desire a hydropathic or homeopathic course of treatment will receive such.

TERMS—Treatment with room and board, $15 to $30 per week, in advance.
Lying-in Patients, from $30 to $50 per week, in advance.

For further information or particulars, address

OAKLAND HEALTH INSTITUTE, OAKLAND, CAL.

ANAHEIM GAZETTE.

Weekly and Semi-Weekly.

RICHARD MELROSE & FRED. W. ATHEARN,

Editors and Publishers.

Anaheim, Los Angeles County, is one of the most famous towns in the State, and its growth, since it was founded by Germans, is unprecedented in the history of colonies. Its natural advantages are great. Added to a climate of world renowned salubrity, it possesses a soil of surpassing richness and fertility. The vineyards of Anaheim produce wines of famous vintage, and in the immediate vicinity are numerous young orange groves. Unimproved land is for sale at reasonable prices.

THE GAZETTE

Was established in 1870, and since that time it has labored assiduously in drawing public attention to the attractions of the locality where it is published. It is looked upon as the representative paper of the southern part of Los Angeles County, and in point of circulation and influence, it will compare favorably with many papers published in towns containing four times the population of Anaheim. As an ADVERTISING MEDIUM it is one of the most valuable in Southern California.

The Daily Bee!

SACRAMENTO, CAL.

The attention of all who may be in any way benefited by advertising in a first class, widely circulated paper, is called to the fact that the DAILY BEE represents the RICHEST DISTRICT IN CALIFORNIA, and the only section where anything like average crops are assured each year.

This great section, which includes the counties of Butte, Yuba, Sutter, Tehama, Lake, Colusa, Shasta, Yolo, Solano, Napa, Placer, Nevada, El Dorado, Amador, Calaveras and Sacramento, is the peculiar field of the DAILY BEE, as railroad facilities enable us to reach all points within this central belt AHEAD OF ALL COMPETITORS.

Regular agencies of the BEE are established in every town of note within this rich belt of country, and it reaches the farming community by being thrown from the cars by agents on most of the routes. The BEE'S agencies also extend along the line of the Central Pacific Railroad far out into the State of Nevada, and on the Virginia and Truckee Railroad as well.

It also reaches all the Mountain Lakes, and every Pleasure Resort in the mountains or by the seaside, and every hotel of importance on the coast.

Its circulation in Sacramento is DOUBLE that of any other paper, it having been published at the Capital continuously for 21 years. The BEE'S news is the latest and of the best, its telegrams being from the Associated Press. Its circulation, though great before, has been doubled in the past two years, and is still steadily advancing.

TWO EDITIONS PUBLISHED DAILY.

I. N. HARSHBERGER'S

DOUBLE CYLINDER WHEAT SCOURER.

This wheat scourer consists of double, revolving vertical cylinders, one within the other, and moving in opposite directions. The inside cylinder is in eight sections of ribbed, chilled iron, fitted up so that the sides may be changed when they become warm from use. The outer cylinder is formed by a cast iron base, to the periphery of which are attached steel brushes. The jacket is composed of eight sections, cast-iron, with opening, clothed with heavy wire cloth, to permit the dust and bran to pass through; also faced with steel plates 2½ inches in width, full length of jacket, checked same as filework, and so arranged by a screw that they can readily be set closer to the inside surface while in motion. The upper part of the jacket is supported by a cast-iron top with a hollow journal to let the grain pass into the mill. The grain is forced between the scouring surface of the two cylinders into a chamber, clothed with wire cloth, where the steel brushes come in contact with it and remove all loose dust left over by the scouring process. Thence the wheat is discharged into a suction pipe, where all light grains and hulls are eliminated, while the bran and the ends of the berry are deposited in separate sacks. The machine is driven by two belts, each six inches in width, and is supported by a cast-iron frame, with a wooden outside casing. The entire weight of the machines is 1,942 pounds, and its capcity for scouring is eleven tons per hour.

The present management, on assuming control on the First of May last, said:

"It shall be our study to make the STATESMAN a reliable newspaper, giving the latest news gathered from all parts of the world. We shall labor to make it an educator, in all that tends to elevate and promote the well-being of mankind. The STATESMAN shall be INDEPENDENT in all things and NEUTRAL in nothing. In politics, emphatically Republican; loyal to the Government, without prejudice as to class or section, uncontrolled by [illegible] "cliques," but, "with a firmness in the right as God gives us to see the right," the STATESMAN shall give no uncertain sound."

With these purposes firmly adhered to, and the great improvements already made, the STATESMAN is now the best political newspaper in Oregon.

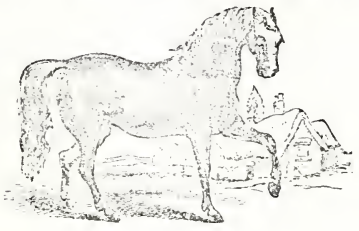
W. C. MYER,

IMPORTER AND BREEDER OF

PERCHERON HORSES

AND JERSEY CATTLE.



Editors of the "American Agriculturist say: "The Percheron Horse no doubt stands first among the draft breeds of the world. His value has been thoroughly tested in this country, and the fact is established beyond a cavil. The Percheron maintains his superior characteristics, and impresses them on his descendents of only one-quarter or one-eighth blood in a very marked degree. * * * The Percheron, combining as he does a certain attractiveness of style, very free action, considerable speed, united to power, with astounding strength, for his weight, and the greatest kindness and docility, seems to offer to American horse-breeders an exceedingly useful animal, either to be maintained distinct, or be used for improving our stock of both light and heavy draft horses by crossing."

Mr. A. E. Buck, who has recently become one of the proprietors and editors-in-chief of the "Spirit of the Times," has spent most of his time for a year past in Europe. He has always been an admirer of trotting and running horses, and is an enthusiastic lover of the turf. While in Europe he critically examined the various breeds of horses in the several countries visited by him, and he was so favorably impressed with the draft horses of France, that he purchased 12 Percheron Stallions, which reached New York in fine condition. Mr. Buck is enthusiastic in his praise of this breed, and says that: "The finest general purpose, and the most stylish carriage horses he has ever seen are the produce of the second cross from the Norman or Percheron stock in France," and he thinks that they cannot fail to produce the same results in this country.—*Ex. Live Stock Journal.*

Hundreds of intelligent horsemen that have seen my stock of horses, concur in the above statement,

I now have three pure bred, imported Percheron Stallions, and ten Mares and Fillies, full bred and high grades; **One three-quarter blood, the lowest grade I have,** that will compare favorably with any ever imported, or bred in the United States.

From this stock I will be able to furnish breeders of this coast Colts for stock purposes, equal to the best imported. Be it known, there is no breed or family of draft horses that equals the Percheron, for style, action, stamina, form and size. This fact is on account of their Arabian origin.

I also have a Fine Herd of Pure Bred Jersey Cattle.

This breed of Cattle is noted or valued for the amount of rich cream and quality of their butter. Every family that keeps a cow should have a Jersey.

I have recently published an illustrated catalogue of my stock, with six fine engravings, taken from life, and photographs of my Percherons, stables, etc. This will be forwarded, free, to all interested in stock, who may address me on the subject.

PACIFIC BUSINESS COLLEGE

320 POST STREET,

RED MEN'S BUILDING, OPP. UNION SQUARE, SAN FRANCISCO.

This school is justly ranked by the public as the best Commercial College on the Pacific Coast. It affords excellent facilities in the following courses of instruction.

THE BUSINESS COURSE.

This is designed to prepare students for COMMERCIAL and BUSINESS PURSUITS. It embraces the following studies:

BOOK-KEEPING—BY BOTH SINGLE AND DOUBLE ENTRY, as applied to all kinds of business, such as Wholesale and Retail Merchandising, Farming, Manufacturing, Mining, Brokerage and Exchange, Importing and Jobbing, Commission, Railroading, Banking, Etc.

COMMERCIAL CALCULATIONS—Embracing the most rapid and abbreviated methods of calculation in Percentage, Profit and Loss, Commission, Interest and Discount, Domestic and Foreign Exchange, General Average, Equation of Payments, Interest Accounts, Averaging Accounts, Partnership Settlements, etc.

PENMANSHIP—Including careful instruction in the finger, muscular, whole-arm and combined movements, as applied to plain business writing, ledger headings, etc.

CORRESPONDENCE—Embracing instruction in composition of business letters, use of capitals, rules of punctuation, folding, addressing, etc.

BUSINESS FORMS—Such as Notes, Drafts, Bills of Exchange, Accounts Current, Account Sales, Articles of Co-partnership, Deeds, Leases, etc.

ACTUAL BUSINESS PRACTICE—In Wholesale and Retail Merchandising, Importing and Jobbing, Commission and Forwarding, Banking, etc., etc.

COMMERCIAL LAW—Relating to Negotiable Paper, Contracts, Partnerships, etc.

BUSINESS CUSTOMS AND HABITS—Lectures and practical instruction on the habitudes and customs of business, etc.

LECTURES AND ORAL INSTRUCTION—On Commercial Geography, Political Economy, and General Business subjects.

RATES OF TUITION—Payable in advance.

SCHOLARSHIP for the full Business Course as above explained, time unlimited, - - $70

PARTIAL COURSE.

Three Months, Day Sessions, - - -	$50	Three Months, Evening Sessions, - -	$25
One Month, " " - - -	20	One Month, " " - -	10

ACADEMICAL COURSE.

This department is designed for imparting to persons of any age thorough instruction in the ordinary English branches, such as Spelling, Reading, Writing, Arithmetic, Grammar, Composition, Letter Writing, History, etc., and the general Mathematical branches, such as higher Arithmetic, Algebra, Geometry, Mensuration, Surveying, Civil Engineering, Navigation, etc.

Rates of Tuition: One Month, $12; Three Months, $30.

COMBINED COURSE.

It is frequently desirable for students pursuing the regular Business Course to combine with it Spelling and English Grammar, or some other studies of the Academical Course. Where the studies of the two courses are combined, the charge per term of six months, payable in advance, is $75.

SPECIAL BRANCHES.

Persons desiring to study only some particular branch, as Business or Ornamental Penmanship, Arithmetic, etc., can enter the College for such branch upon very reasonable terms.

TELEGRAPHIC DEPARTMENT.

The course in this department includes everything that will make students proficient in the Art of Telegraphy—sound and paper operating, setting-up of instruments, management of batteries, use of switches and ground wires, etc. The facilities are such as will enable ladies and gentlemen to learn Telegraphy, practically and thoroughly, in the shortest possible time.

Rates of Tuition: Three months, $75; Six months, $40.

Students of the Commercial or Academical Departments will be charged the following rates:
Three months, $15; Six months, $25.

NO VACATIONS. DAY AND EVENING SESSIONS DURING THE ENTIRE YEAR.

Pacific Business College,

No. 320 POST STREET, SAN FRANCISCO

THE LEADING COMMERCIAL COLLEGE ON THE COAST!

Elegant Halls; New Furniture; Thorough Instruction; Practical Teachers; Perfect Discipline; Large Number of Students; High Standing with the Public.

This is the oldest College in San Francisco that now has a Business Education as its separate specialty. Its graduates who hold a diploma are in greater demand and command more than those from all the other Business Colleges on the Coast. It is the only College that issues LIFE SCHOLARSHIPS to its Business Course. It is centrally located, on the second floor, opposite Union Square, in one of the most quiet and pleasant sections of the city. It has one of the most commodious and elegantly furnished halls, and the most complete system of actual business training.

YOUNG AND MIDDLE-AGED MEN,

Wishing to prepare themselves for the practical duties of life, at the least expense of time and money will find this the best school. Students are just what they want in a business school. A DIPLOMA from this College is of great value to young men and ladies. No young or middle-aged man is now considered well qualified for the duties of life who has not a knowledge of the elements of business, unless he enjoys the advantage of actual experience in business. A course of commercial training is no less important to the mechanic, the farmer and the manufacturer, than to the merchant or banker.

THE BUSINESS COURSE.

The Business Course is far more thorough and practical than that of any other College. Our practical system of ACTUAL BUSINESS TRAINING is the best ever introduced in any school. Its features are

THEORY AND PRACTICE

In such a manner as to make each go hand in hand to the same end; that is, the Science and Counting-room are united in such a manner that the student receives the benefit of both at the same time. There is an actual operation of a Banking House with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., to fully illustrate the Banking business.

The student *Keeps, Sells, Saves, Buys, Collects, Accepts, Discounts, Leases, Draws Checks, Notes and Drafts, Gives Leases, Draws Deeds*, etc., etc., goes through the entire routine of actual business, the same as carried on daily in the leading Banking Houses in Boston, New York and Chicago. Also, Actual Joint Stock and Partnership Business, in every style and form of book-keeping, is done with the regulated Business Houses. By this system the student receives the benefit of actual business practice in conducting business affairs as he would in a business house. Office hours are from 9 to 4. Each student receives individual instruction from the teachers and can thus advance as rapidly as his ability will permit.

SPECIAL INFORMATION.

TIME OF ENTERING.—There are no "terms," divisions and no vacations. Students can enter at any time during the year with equal advantage.

QUALIFICATIONS FOR ENTERING.—A fair knowledge of the common English branches is all that is required to commence the Business Course, though the better the education of the student has the more rapid and successful his progress. Students not sufficiently advanced to commence the Business Course can take arithmetic or penmanship, or receive the necessary preparatory instruction in the ACADEMICAL DEPARTMENT.

SCHOOL HOURS.—Day Sessions are from 9 to 12 A. M. and from 1 to 4 P. M. Evening Sessions are from 7 to 9 during the entire year.

DISCIPLINE.—The discipline of all the departments is very strict; the student is required to be regular in attendance, prompt in the application to study, and quiet, courteous and diligent in the department to learn its rules and observe strictly.

VISITORS.—Visitors are always welcome and especially the parents and friends of students and the friends of education. The best time, as a rule, to see the working of the College is from 10 to 12 A. M., but there is no hour during the daily exercises when visitors will not receive proper attention.

THE PACIFIC BUSINESS COLLEGE REVIEW,

PACIFIC BUSINESS COLLEGE,

SAN FRANCISCO, CAL.

SAN FRANCISCO.

The City of San Francisco is eligibly situated as the western outlet and entrepot of the United States. Her ready adoption as such would demonstrate this. Besides which, she is the nucleus for the extensive trade of the Pacific Coast, being the market and depot for the same.

Although but twenty-nine years have elapsed since the site on which San Francisco stands was a barren waste, she is now classified among the greatest American cities, and her individual importance is greater than that of any other city in the United States, excepting New York and Philadelphia. Her wealth is something enormous.

The growth of San Francisco has been very rapid, and such improvements have been made as to give the city the appearance of a great metropolis. Her public and private buildings are the pride of every Californian; while those that are being projected and that are under contemplation, are estimated to cost millions of dollars. Her moneyed men are enterprising and will invest large capital in improving the city, seeking no immediate return but the satisfaction of making some unsightly corner look presentable.

The city is well supplied with every useful institution with which the other great cities of the Union are possessed. Educational institutions, churches, libraries, societies, theaters and newspapers, are there in plenty. Her hotel accommodations are unsurpassed in the world. Her charitable institutions are efficient but their usefulness is seldom called into requisition—distress in San Francisco being something comparatively scarce, saving in exceptionably bad times, which are infrequent.

The streets are regularly laid out, well kept and lighted, and taken altogether, San Francisco would seem to be possessed of magnetic qualities, for she has attracted a population of 300,000 in a little over a quarter of a century.

Astoria,

CLATSOP COUNTY, OREGON.

County seat. Population, 5,000. Is situated 15 miles from the mouth of Columbia River, and 110 miles from Portland. Astoria has many facilities as an entrepot; besides which, her fishing interests are considerable. Some of the largest salmon canneries on the river are located there. Its population is largely augmented in the fishing season by a large "floating" element, and as a consequence the town presents a bustling appearance. Many enterprises are established in Astoria, and she is growing in importance rapidly.

RUPTURE CURED.

DR. ROWE'S PATENT ELASTIC TRUSS

Is the only reliable and comfortable Truss ever invented for the alleviation and cure of recent or chronic abdominal Hernia. There are no tempered springs to confine the body; pressure regulated to suit, and only where the bowel escapes; pressure up and back, therefore retaining the Hernia at all times. The only Truss that can, with comfort, be worn at night as well as day, thereby insuring cures where metallic Trusses have failed. 20,000 sold and now in use.

THE ROWE ELASTIC TRUSS.

The perfection to which Dr. Rowe has brought his Patent Elastic Truss is the result of long and careful practical application. In the use of this Truss the pressure is always under the control of the patient, and is so equalized as to cause no inconvenience or discomfort. The harassing and painful metallic Truss has, in the march of scientific invention, been compelled to yield its place to one constructed upon common sense principles. The most skilled of our physicians and surgeons have adopted the Rowe Truss, and express their wonder that such ill designed instruments of torture as the old iron hoops, that were the sole resort of the sufferer, had not been discarded long before. The Rowe Truss is simple in construction, moderate in price, and perfect in action, insuring cures in the most distressing cases. Dr. Rowe is deserving the gratitude of the many sufferers from rupture, for perfecting so valuable an instrument for its alleviation and cure.—*S. F. Chronicle.*

Experience shows that all tempered spring Trusses necessarily press upon and often discase parts of the body that before were in a perfectly healthy condition. Lumbago, and other equally distressing ailments, are not unfrequently the outgrowth of such pressure, and in view of this fact it becomes a matter of decided consequence to avoid such calamities, if possible.

Near the corner of Seventh St., SACRAMENTO, CAL.

'Tis best when things seem going wrong
To be as patient as we can;
To feel the night may not be long,
Though we should fail in every plan;
The best are liable to err,
As wise men in the past have done;
The charge of folly all mean,
Since no one's perfect 'neath the sun;
But people are wise when they need pictures,
Gems, cards, large pictures, framed all complete,
To get them at O. M. GOVE'S,
Corner of J and Seventh Street.

When friend from friend is parting,
And in each speaking eye
The silent tears are starting,
To tell what words deny;
Oh, if we only had a picture
Of the loved one passed away,
Or of the cunning little baby,
That is so full of play,
Made by GOVE, the Leading Artist,
That are so exquisite,
(So all the ladies say),
And the beauty of his pictures,
They NEVER FADE AWAY.

The Grocer and Country Merchant

OF

SAN FRANCISCO, CALIFORNIA.

This paper, now in the fourth year of its publication, was established and is still conducted by experienced merchants who hold that the circulation of a commercial paper should be confined strictly to those engaged in active trade, and that whenever a paper containing the *trade* quotations of merchandise is furnished to consumers outside of the mercantile profession, it ceases to be the friend, and at once becomes the most dangerous enemy to the interest of regular dealers.

The price which a merchant pays for his goods at wholesale is his own affair, and no prudent dealer will expose his cost prices to his customers, but on the contrary, he uses private marks for the sole purpose of maintaining the privacy of his costs, and this privacy is violated by every commercial paper which takes subscribers outside of the regular trade.

We hold that organized opposition to the regular trade, whether it results from Granger combinations, Sovereigns of Industry or Co-operative Unions, is in direct conflict with the welfare of the laboring classes and the community at large, and the influence developed through the readers of our paper in every portion of the Pacific coast has been, is, and will continue to be, a powerful agent in keeping down these foolish conflicts.

We recognize and maintain, that in that interchange of commodities which is called commerce, we find the greatest civilizing influence ever developed among men, and that the "middlemen"—those who invest their means in the products of industry in advance of the requirements of consumption, are the true friends and benefactors of every form of labor—in the factory, on the farm, or elsewhere.

In short, our paper is a steadfast friend and earnest advocate of mercantile interests. Its principles, which cannot be questioned, have been presented and maintained by editorial ability, second to that of no commercial paper in this country, and its influence to-day, among the merchants of the Pacific States and Territories, in all matters relating to trade, is greater than that of all other publications combined. It is read and esteemed by a majority of the merchants in every city, town, and hamlet of this portion of the Union, and its subscribers represent an active buying capital and credit of not less than $300,000,000. This vast sum is in the hands of those who are constantly seeking desirable investments, and manufacturers and dealers who are prepared to give attractive inducements, can through the columns of our paper create a favorable influence on three hundred millions of money, which is used for *buying*, BUYING, and nothing but BUYING.

Those who favor us with their patronage can rest assured that their interests will be presented to the trade through a medium which inspires confidence wherever it is known, and that favorable terms will be the certain result.

THE GROCER AND COUNTRY MERCHANT is issued every Friday morning, and is furnished to Merchants *only* at $2 50 a year, post-paid. Advertising rates made known on application.
